### **BOARD MOTION OF JUNE 19, 2012, AGENDA ITEM 4 CARSON STREET AT BUDLONG AVENUE UNINCORPORATED HARBOR CITY AREA TRAFFIC SIGNAL**

The following is background information regarding Item 4 on the June 19, 2012, agenda. This item directs Public Works to install a traffic signal at the intersection of Carson Street and Budlong Avenue in the unincorporated Harbor City area.

Consistent with your Board's adopted policy, we are informing you that we performed a traffic engineering study at the intersection of Carson Street and Budlong Avenue. The study was conducted to consider installing a traffic signal to enhance the safety of employees and visitors of the Harbor UCLA Medical Center. The study consisted of an analysis of traffic volumes, speed data, a review of the current history of reported collisions, a field assessment of the site, and a review of other pertinent data.

Based on the findings of this study, the location did not satisfy the nationally recognized minimum criteria necessary to consider the installation of a traffic signal. Consequently, this traffic signal is not recommended.

If you have any questions, please call me or your staff may contact Patrick V. DeChellis, Deputy Director, at (626) 458-4004.
